## Meet Frank Shallenberger, M.D.

**Dr.** Shallenberger has practiced medicine for more than 35 years, after earning his M.D. degree from the University of Maryland, School of Medicine, and receiving post-graduate training at Mt. Zion Hospital in San Francisco. Dr. Shallenberger is also certified by the American Board of Anti-Aging Medicine (A.B.A.A.M.) as an anti-aging physician and has also been trained and certified in other areas of alternative medicine.

This makes Dr. Shallenberger one of a small minority of doctors in this country licensed in conventional as well as alternative medicine. But more importantly, it allows him to integrate the best of both approaches for optimal results at his wellness clinic, The Nevada Center of Alternative and Anti-Aging Medicine.

Dr. Shallenberger has been on the forefront of integrative medicine for several years with his involvement with the American College for the Advancement of Medicine (ACAM), The American Preventive Medical Association, and the American Academy of Anti-Aging Medicine. He currently serves as an officer for the Orthomolecular Medicine-Health Society (OMH), founded in honor of two-time Nobel Prize winner Linus Pauling.

Dr. Shallenberger has trained hundreds of physicians on his innovative medical treatments and published numerous scientific papers. He is a past Clinical Instructor of Family Medicine at the University of California-Davis School of Medicine. He is also the author of two health books, *Bursting with Energy* and *The Type 2 Diabetes Breakthrough*.

In 2007, Dr. Frank Shallenberger began writing *REAL CURES*, a cutting-edge health advisory that brings subscribers breakthrough cures not found in mainstream medicine or even from other “alternative” or anti-aging doctors.

>> **June wants to avoid risky bypass surgery, so she uses a natural, non-invasive treatment instead.** Within two weeks, all her chest pains are gone. Three months later, June's cardiologist performs a stress test and echocardiogram...and finds NO signs of heart disease at all!

>> **Carol hears about a simple, natural therapy and decides to try it.** Within six months, her vision improves to the point that she passes her driving test. Five years later, Carol's eyesight is intact and she is still living in her house.

**Knee arthritis cured. Heart disease erased.  
Vision loss restored.**

*What the heck is going on?*

You're not dreaming. Nor are these scenes from some futuristic, science fiction movie. These real-life healing miracles are happening today.

In fact, they're taking place in a cutting-edge health clinic in Nevada, run by one of the most successful and innovative physicians in the country: **Dr. Frank Shallenberger.**

Many patients come to Dr. Shallenberger because they've been told by other doctors they'd die without an operation...are fed up with simply treating their symptoms with drugs...or because their doctors have told them there's nothing else they can do for them.

Like many of their doctors, Dr. Shallenberger is a conventionally trained medical doctor. He earned his M.D. degree from the University of Maryland, and has practiced medicine for more than 35 years.

But he's also been on the forefront of alternative medicine. Dr. Shallenberger has
